About us

OUR HISTORY

Fruit Fresh Spain is part of a business group that grows and supplies fresh citrus and fruit. We grow, select and process the best fruits. Our headquarters are located in Murcia - Spain. We have been at the forefront of fresh citrus and fruits for the past ten years and have an extensive international customer base. We sell organic and conventional products.

OUR MISSION

Is to offer our customers new options for the consumption of Citrus and Fruit fresh in an easy way, and with multiple and healthy alternatives.

OUR VISION

is to be a world leader in the market for citrus and fruit fresh, known for the quality and health of offered products and sustainability of all its processes.

Our Fruits

Working with local agricultural producers who are both partners and suppliers, means that the company has direct access to a wide variety of crops near our factories. Our suppliers have extensive experience in agricultural production which allows Fruit Fresh Spain to obtain high quality fruits. The proximity of the crops to the plant and the speed of processing of the products guarantees maximum freshness.

Tangerines

TANGERINE FRESH

FROM THE TREE
TO YOUR TABLE

This is a perfect citrus fruit for everyone. It is optimal in size to be consumed daily. It is easy to peel, and above all sweet, very sweet. In tangerines, an enhanced version of a citrus fruit, the characteristic acidity of these fruits is notably reduced.

Characteristics: High fibre content, antioxidant, vitamins C and B, citric acid and carotene, an anti-cold, anti-inflammatory effect, blood pressure regulator and beneficial for the treatment of ulcers.

peaches

PEACHES

FROM THE TREE
TO YOUR TABLE

Peaches provide small amounts of vitamins, among which, vitamin C stands out (with one peach more than 15% of the recommended daily vitamin intake is covered) and minerals, and moderate proportions of carotenoids and provitamin As such as alpha-carotene, beta-carotene and kryptoxanthin. To this long list of benefits we must add up the presence of coumarins: offering muscular protection with anticancer effects.

APRICOTS

FROM THE TREE
TO YOUR TABLE

The apricot comes from the Rosaceae family, standing out for its yellow-orange skin with reddish hues. It has a great mealy consistency when ripe. Medical studies suggest that apricots can reduce the risk of cardiovascular diseases such as hypertension. In addition, they are healthy for bones and are used in the treatment of anemia
